RING SIZE

If you do not know your ring size download and print this PDF (before printing make sure the scaling is adjusted to actual size), and follow our instructions to obtain an accurate measurement.

1. Measure the circumference of your finger with a metric ruler (in mm) or select a ring you already own.
2. Compare it carefully to the size chart provided below in order to find the perfect fit (the ring should be big enough to easily slide over your knuckle but don't fall off).
3. Pick your size and you're good to go!

* All of our rings are handmade and may present some variations.
